MOBIL STEEL EARNS AISC QUALITY FABRICATION STANDARD

HOUSTON (JUNE 9, 2015) – [Mobil Steel International, Inc.](#) received its ninth consecutive [American Institute of Steel Construction \(AISC\)](#) quality certification renewal earlier this year, reaffirming Mobil Steel’s commitment to producing quality steel fabrication. AISC certification highlights that Mobil Steel has the personnel, knowledge, organization, and equipment, as well as the experience, capability, procedures and commitment to meet AISC steel fabrication standards.

Mobil Steel is one of only 12 Houston area steel fabricators to achieve the coveted certification. Every year, AISC conducts a rigorous audit of Mobil Steel to ensure its dedication to quality steel fabrication. Initially certified in 2001, Mobil Steel completed a diligent re-certification process in 2006 to demonstrate its commitment to quality and to differentiate itself in the steel fabrication industry.

“AISC certification continues to offer the industry a valuable means for qualifying companies and serves as an effective way for those companies to communicate their commitment and capability with respect to quality,” notes Jacques Cattan, AISC vice president of Certification.

Focus on Customers, Quality Products Drives Success for Steel Fabrication Company

“Mobil Steel continues to be an industry leader with our commitment to quality products and a reliable, customer-focused approach.” said Leonard A. Bedell, president and CEO of Mobil Steel.

Bedell attributes Mobil Steel’s continued success in attracting new projects to a reliable, customer-focused business approach and AISC certification Mobil Steel has maintained throughout its years. AISC labels steel fabrication as the heart of the structural steel supply chain due to controlled conditions ensuring consistently high-quality products, along with the reduction or elimination of errors and fixes at the job site.

About Mobil Steel International, Inc.

[Mobil Steel International, Inc.](#) fabricates steel used in some of the world's essential industries: chemical, manufacturing, petroleum, communication, clean fuels, and power utilities, as well as commercial construction. Mobil Steel, which has been at its South Wayside Drive facility in Houston for 45 years, has a production capacity of more than 1,000 tons per month in its 80,000 square feet of plant and office facilities under roof, providing flexibility to manage multiple projects. The 8.5-acre site is located within major freeway access to the refining and petrochemical complex in the Gulf Coast region. Mobil Steel is quality certified by the [American Institute of Steel Construction](#) (AISC). Mobil Steel is active in [Associated Builders and Contractors](#), [Associated General Contractors](#), [Association of Chemical Industry of Texas](#), and [American Welding Society](#). The company is a sponsoring member of [Economic Alliance Houston Port Region](#) and a member of the [Pasadena Chamber of Commerce](#).
